

Procurement Notice: Request For Information (RFI) For the Provision of Medical Imaging Equipment to the Kurdistan Regional Government

Background

The Major Contracts Unit (MCU) within Prime Minister's office and the Ministry of Health (MoH) of Kurdistan Regional Government (KRG) are publishing Request for Information (RFI) to seek written information from the industry's suppliers on the ability to provide public hospitals in the Kurdistan Region-Iraq with medical diagnostic imaging (MDI) equipment, as well as the corresponding maintenance and training for such equipment. The MDI equipment include: CT Scan, MRI and CathLab.

With this RFI, the MCU and MoH hope to gain feedback, innovative ideas and solutions from the Industry on how best to procure, install, maintain and manage its MDI equipment. The RFI's ultimate goal is to improve patient access to effective diagnostic capabilities within the country's public health sector.

The result of the research conducted through this RFI will support the development of the requirements for a potential subsequent public procurement process.

Contracting Authority (CA):

Kurdistan Regional Government Ministry of Health

Location

Kurdistan Region of Iraq

RFP Reference No.

KRI-RFP-006/22
